ORGANIZE A CLUB TO "GET THE GOAT"

Agricultural College, N. M., Nov. 12.—"Get Roswell's goat," is the slogan of the club organized under that name here among the boys. There were over 75 persons present, and all signed up as members. Much enthusiasm was shown and the boys demonstrated that they would assist in every way to make the coming game between the home team and the New Mexico Military Institute a well advertised event.

The club has arranged a parade to take place in Las Cruces a few nights before the game, and money has been put up to get badges with the slogan on them.

John Powers was elected chairman of the club; Kirkpatrick, secretary, and Hausman, Hall and Haggart were elected as lieutenants.

Mark B. Thompson of Las Cruces gave an address before the faculty members and students on "Law and Lawyers and Their Consideration With Every Day Life."

The Agricultural club held an exceedingly instructive and interesting meeting. Prof. Mundell, assistant in horticulture, gave a lecture on "Some of the Injurious Insects of New Mexico," his subject being illustrated by specimens shown on the screen by the reflectoscope belonging to the college. Burton Fite gave the "Current Agricultural News," which was well selected. Oscar Snow will address the club next Wednesday night.

A college glee club has been organized by Miss Maud Morrison, who has charge of the music department. The club is limited to 12. They sang their first song, "The Bulldog on the bank." In general assembly yesterday. A stringed band will be organized among them in a short time. Miss Morrison

WINTER IRRIGATION TESTS BEING MADE

Las Cruces, N. M., Nov. 12.—Prof. Fabian Garcia, head of the horticultural department of the New Mexico College of Agriculture and Mechanic Arts, is conducting a series of experiments this winter to determine the value and the advantage, if any, of winter irrigation.

The orchard and the vineyard at the experiment station at the Agricultural college will be irrigated with water from the large pumping plant which has been installed there. Certain rows of trees and vines will be irrigated at certain intervals and other rows will be irrigated more frequently, making about four different tests. Next year's fruit crop will be watched from each series of rows and data compiled as to which does the best. It is thought that by this experiment it can be definitely determined whether winter irrigation is beneficial and also as to how frequent the irrigations should be and how much water is required for the best results.

With the completion of the Elephant Butte dam water will be assured to the landowners of the valley the year round, so that if winter irrigation should be proved to be beneficial the growers of the valley will be enabled to get the most good from their water and produce the greatest yield from their tree, vines and other crops. The results of the experiment will later be published in bulletin form.

ARE LOOKING FOR SITE IN MOUNTAINS

Las Cruces, N. M., Nov. 12.—Dr. E. D. Sinks and R. C. Wilson went out to the Organ mountains yesterday to stay for several days on a search for the best site for their new sanitarium. They were accompanied by M. B. Thompson and F. C. Merrell. The party is camping at the Isaacks house in Soledad canyon and will hunt deer while they are there, although the primary purpose is the location of the sanitarium site.

J. D. Isaacks has offered a tract of land containing about 200 acres, and with water upon it in the shape of springs. The other site in that locality which will be looked into is one near Box canyon, just north of Soledad, either location being convenient to Las Cruces. The building of a road to either site would be an easy matter, as the old roads will need but little repairing in order to make them fit. The party expects to be gone for several days.

ARE PREPARING TO TAKE CARE OF WATER

Las Cruces, N. M., Nov. 12.—The farmers of the valley are taking advantage of the fact that there is no water in the river and ditches to get everything in shape for the coming of water in the spring.

In all the ditches the water users are taking out the old style water gates and replacing them with those of improved and modern design. This will not only tend to facilitate the irrigation of the land, but will also aid in lessening the waste of irrigation water. With good gates, well built borders and heavy revolvers the same amount of water will do almost twice as much good.

The commissioners of the different ditches have agreed to watch water waste, and those farmers who irrigate the public roads hereafter will be dealt with according to the law.

NEW ROAD WILL FOLLOW SANTA FE RIGHT-OF-WAY

Earlham, N. M., Nov. 12.—Col. E. H. Newsum has been in Las Cruces putting the final touches on the "short line road" from Dona Ana to Anthony. It is unanimously agreed that the Camino Real should begin at Anthony and continue along the right-of-way of the A. T. & S. F. railroad (Santa Fe) to Dona Ana. Work is expected to begin in earnest about the first of January, 1911.

The Rains family passed through Earlham this week from Berino on their overland trip to California. Alfalfa seed is being threshed on the ranches of William Brown, the Earlham Land and Town Co., G. W.

Mossman and others. The yield for a dry year is remarkably good. County surveyor Post is running the lines of land recently purchased by E. A. Hutchins. Of the numerous suggestions for a new name, Mr. Post's suggestion of "Hub" has been adopted. And as soon as the postoffice authorities and the railroad people can be induced to make the change the post-office station will have one name instead of two, and that name will be "Hub," as it is the center of the famous Mesilla valley, being 28 miles from El Paso and 28 miles from Selden, in the widest portion of the valley, six miles in width.

Cad Bruce passed through Earlham with an emigrant outfit to his new home in Florida. Mr. Bruce and his family will follow in about a week. Joseph Bass, an old soldier of Oklahoma, has filed a soldier's declaratory on 160 acres government claim and will have six months in which to settle on his claim.

Notice has been received by Eli Newsum of the allowance of the pension claim of N. C. McCall, widow of Bernard McCall. This claim was filed September 26, 1910, and allowed November 4th, just one month and eight days.

Miss Hutchins, the A. T. & S. F. agent at this place, has received a pair of fine Black Minorca chickens from California.

OPEN DEER SEASON ENDS IN NEW MEXICO TUESDAY.

Las Cruces, N. M., Nov. 12.—The open season for deer will close on Tuesday, November 15, in New Mexico. So far there have been but few of the antlered animals killed, but there are now about six hunting parties from this town camped in the various mountain ranges near here and some of these will doubtless bring in a trophy of the hunt.

The deer are very wild in the mountains this year and the lack of water has made them even more scarce than usual. The quail, wild turkey and grouse season keeps open until December 31.

COLLEGE GIRLS HOLD AN OLD TIME COUNTRY FAIR.

Las Cruces, N. M., Nov. 12.—At the Agricultural college the members of the Young Women's Christian association held a country fair, which was well attended and which netted a very respectable sum of money. The fair was given for the purpose of raising funds with which to furnish one room in the new building to be built this winter and which will be used by the Y. W. C. A. as their headquarters. The fair was held in Hadley hall, quite a number of Las Cruces and Mesilla Park people being present.

GAME WITH ROSWELL ON THANKSGIVING IS ASSURED.

Las Cruces, N. M., Nov. 12.—That the Roswell Military Institute football team will be brought to the Agricultural college to play against the college team on Thanksgiving day is now an assured fact, subscriptions sufficient to meet the expense having been secured.

AT THE COLLEGE ABOUT \$300 HAS BEEN RAISED, AND L. W. CASE HAS SECURED ABOUT \$150 IN LAS CRUCES. THESE AMOUNTS, WITH THE GATE RECEIPTS, WILL MORE THAN MAKE THE \$550 THAT IT WILL TAKE TO BRING THE ROSWELL BOYS HERE.

PROGRESS BEING MADE ON TWO NEW BUILDINGS.

Las Cruces, N. M., Nov. 12.—Satisfactory progress is being made on both the new buildings being erected in this town. The carpenters have commenced on the woodwork of the new Riley building and have the rafters all laid for the roof. On the new May building, the old buildings have been removed and the men are now at work excavating for the basement. Work on the foundations will be commenced next week.

DEED FILED AT CRUCES SIGNED BY WILLIAM MCKINLEY.

Las Cruces, N. M., Nov. 12.—A patent deed to 40 acres of land in township 25, south of range 2 east, was filed in the probate clerk's office yesterday, bearing the signature of William McKinley as president of the United States. The patent was issued to Edwin M. Stevenson in 1900.

BUT ONE GAME PLAYED IN THE BILLIARD TOURNAMENT.

Las Cruces, N. M., Nov. 12.—Only one game was played Thursday in the billiard tournament at the Mission pool hall, the result being as follows: Flett, 56, high run 6; Lopez, 44; high run, 5; Miller, 41, high run 5; McBride, 34, high run 5.

VALUABLE DOG STOLEN.

Las Cruces, N. M., Nov. 12.—Ed. Stephens is mourning over the loss of a thoroughbred Scotch collie puppy, which was stolen from his home a night or two ago. Lem Moore is also minus one puppy of the same breed. A strict watch is being kept for the dogs and the thieves will be severely dealt with if they are apprehended.

FIND USE FOR DIRT.

Las Cruces, N. M., Nov. 12.—The dirt taken from the excavation for the basement of the new May building is being put on the site, running east and west on the south side of the new building. This dirt will be sufficient to grade up that street for one block and put it in good condition.

GATHERING CROP DATA.

Las Cruces, N. M., Nov. 12.—Earl Patterson, engineer in charge at the Leasburg diversion dam, is visiting the farmers of the Mesilla valley this week in order to get data for the annual crop report to be made to the department of agriculture at Washington.

AMUSEMENTS

LAST CHANCE TONIGHT.

Manager Rich says: "Tonight one may see 'Salomy Jane' or lose the opportunity. It probably will never be offered again, at least not at the absurdly small price of 15, 25 and 35 cents. The Crawford again had capacity last night, and as a place to visit Saturday night, has no superior in El Paso."

"STUBBORN CINDERELLA" TONIGHT

A Stubbora Cinderella, the big Chicago production by the authors of those successes "The Time, the Place and the Girl" and "The Goddess of Liberty," has been playing to phenomenal business ever since produced.

The music is of the most charming variety with a host of pretty song numbers, the best being perhaps "When You First Kiss the Last Girl You Love."
